

tedee

# Enter in a new way.

Unlock the door automatically and remotely.  
Share “digital keys” and integrate your lock with a smart home system.

tedee lock

# What your tedee day looks like.

See how a smart lock changes the way to enter your place.

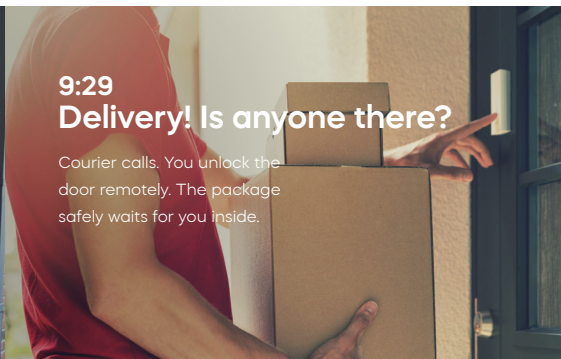

## 7:49 Off to work!

The door locks automatically and integrates with your radio to turn the music off.

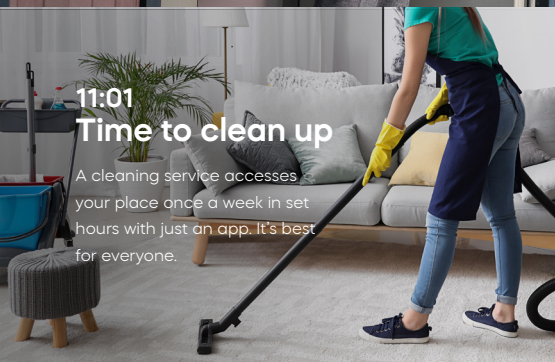

## 9:29 Delivery! Is anyone there?

Courier calls. You unlock the door remotely. The package safely waits for you inside.

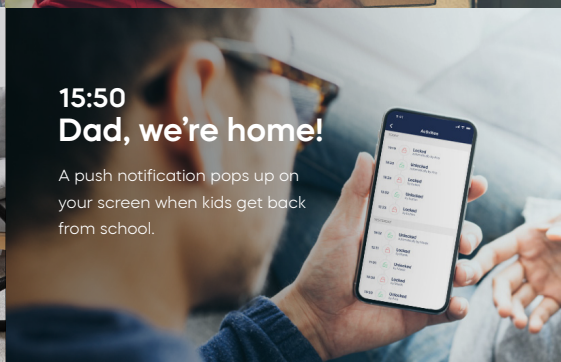

## 11:01 Time to clean up

A cleaning service accesses your place once a week in set hours with just an app. It's best for everyone.

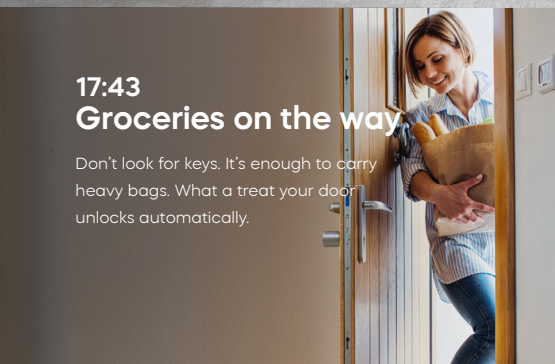

## 15:50 Dad, we're home!

A push notification pops up on your screen when kids get back from school.

## 17:43 Groceries on the way

Don't look for keys. It's enough to carry heavy bags. What a treat your door unlocks automatically.

## 23:18 Have you locked the door?

Just ask a voice assistant on your bedside smart speaker. Sleep safe.

## Enter the smart world.
